MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Weekly Report of the Office of Training

1. DCI Speaks at Army War College

The Agency's one student at the Army War College (██████████) 25X1A9a
DDP/AF) reports that the DCI's speech to the class on 4 June was very
favorably received. Many AWC students sought out ██████████ at the con- 25X1A9a
clusion of the question period to tell him how much they enjoyed the
presentation and what an outstanding impression the DCI made upon
the student body.

The next Army War College class beginning in August will have
two Agency students. One is ██████████ of OCL, the first Negro to 25X1A9a
represent the Agency at any of the Senior Schools. We understand that
25X1A9a ██████████ was instrumental in obtaining "on Base" housing for both
Agency students.

2. Status of Planning for the Next Project USEFUL

The Joint Chiefs of Staff have received the DDCI's letter announcing
the Agency's intention to present the next USEFUL course from
23-27 September. Operations School representatives have been in
touch with the Pentagon's action officer and will work closely with him

on screening this year's candidates.

3. Generous Agency Quotas for "Weapons Courses"

Preliminary advice indicates that the Agency can count on the same number of spaces for FY 69 as FY 68 for the three principal weapons courses. But more spaces are available if we need them. The courses and FY 68 quotas are:

Nuclear Weapons Orientation, Sandia, New Mexico	87
Chemical, Biological, and Radiological Weapons Orientation, Dugway, Utah	45
Logistical Support and Missile Systems Course, Huntsville, Alabama	32

4. Content of Operations Course, Phase II, Given Intensive Study

During the period 4-6 June, a Coordination Conference was held at

25X1A6a [REDACTED] to study proposed revisions of the Ops Course, Phase II.

25X1A14a will be placed on [REDACTED] since this is the stage in which

the Agency's role is most significant. As you know, I attended this

6. Topics in Brief

The School of International Communism has just reviewed an off-the-shelf PAI program titled "Russia vs China." Consensus was that this program is much too elementary in its entire thrust to be useful. To date, SIC has not found any available PAI program which it could use in its communism instruction. . . . The SIC will give a special course on "Introduction to Communism" to a group of about 20 from the Office of Computer Services during July. OCS felt that if the employees had to wait until September it might be impossible to spare them for a regular running of the course. . . . The Agency will play host to the next Brookings Conference on 14 June. Memoranda have been sent to all Agency participants and essential details have been provided including
